Attachments: FY'18-SDOH-BPR Perf Measures.xlsx

David, below are 2011 numbers for below measures as requested:

Percent of Pregnant Women Reiving Adequate Prenatal Care as Define by Kotelchuck's APNCU Index (CY 2011)	68.5%
Rate of Infant Deaths per 1,000 Live Births (CY 2009-2011)	7.6
Percent of Infants Born to Pregnant Women Receiving Prenatal Care in the First Trimester (CY 2011)	66.3%
Percent of Preterm Births (CY 2011)	10.8%

Thanks,
Joyce

Importance: High

Hi David,

Thank you for your patience. We finally arrived back in OKC from our travel nightmare and could access data sources needed to complete. Please see attached spreadsheet with updated Children's Health information.

Please note that the Infant Mortality Rate (IMR) is a rate per 1000 live births and not percentage and that we included both annual and three-year data for the IMR. The three-year moving average IMR is the current standard and the one we are reporting publicly. Also all of our data is by calendar year and not fiscal year and as such we do not have calendar year 2016 data yet but appears may be good year.

Let me know if there is anything further needed.

Best,

Joyce
